```

session.php

Session.php will verify the session, if there is no session it will redirect to login page.

```
<?php
    include('config.php');
    session_start();

    $user_check = $_SESSION['login_user'];

    $ses_sql = mysqli_query($db,"select username from admin where username = '$user_check'");

    $row = mysqli_fetch_array($ses_sql,MYSQLI_ASSOC);

    $login_session = $row['username'];

    if(!isset($_SESSION['login_user'])){
        header("location:login.php");
        die();
    }
?>
```
